#### OMNIBUS DAY AT MONMOUTH.

RUNNING FOR TWENTY THOUSAND.

THE DWYERS TO START TWO-THE CRITERION

STAKES. That rich prize for three-year-olds, the Omnibus Stakes, will be decided to-day at Monmouth Park. It is \$250 each for starters, with \$10,000 added, and is worth about \$20,000. The distance is a mile and a half, with weight penalties for winners and alanwances for non-winners. The many accidents and chances of racing make the field small. Mr. Belmont's colors will not be seen, as Prince Royal is lame and Raceland was never entered for the Omnibus. The Dwy-ers will start both Sir Dixon and Bella B. The filly will probably make the pace for Sir Dixon, who should win easily, as he is now in fine form. Taragen has so great an advantage in the weights that he may run-second. Every one is amazed to see Mr. Haggin's colt Longitude set down as a probable starter, for his running on Thursday in the nith race was con-He showed no trace of speed, and was far in the rear of the field all the way. It cannot be after such a performance that Mr. Haggin expects the colt to accomplish anything in the Omnibus, yet If he did not suppose that he had at least a chance for a place he would hardly start him. It could not be that he was put in the race on Thursday simply for work for the Omnibus, for that was a big handicap, the Rahway, and high-class stables do not put is in big handicaps simply for work. On Thursday's form he certainly has no claim even to a place in the Omnibus. Defence's weight is too heavy to leave him the least chance with sir Dixon, nor is it likely that he can concede ten pounds to Taragon. Larchmont is outclassed. Of course Sir Dixon has a heavy task to take up 125 pounds and give twelve to Taragon and seventoen to Longitude, but he is capable

The Criterion Stakes for two-year-olds will furnish another interesting race. Captain Brown's King Al-ionso-Invercauld colt has been running so well that he should win, with Mr. Withers's Tom Ochiltree-

Mr. Scully, the owner of Ban Yan, has been fretting and fuming because the bidding went up on his fast filly Lottie Wall the other day, and has been threatening to "get even" with various persons. He has put his Ban Yan in the selling race to-day at \$2,000. If Ban Yan wins and is bid up, Mr. Scully need not, scowl and bluster. He takes the risk of losing his horse or having him bid up when he enters the animal in a selling race, and if he does not stop his stilly threats against bidders he may find himself ruled off the turi. If he does not like selling races is not obliged to run his horses in them. Poliowing are the lists of probable starters to-day

## A CLOSE SHAVE FOR TERRA COTTA.

HARD PUSHED TO BEAT A SELLING PLATER IN SARATOGA MUD.

Saratega. Aug. 17 (Special).—The racing association is certainly running in hard luck just now, for the rain again descended at an inopportune time. Speciators were numerous, however, deep to the unpropilious weather. The track was heavy but not muddy, and the sport was remarkably good with the Chicago Stable carrying of the honors, as it furnished three winners who were hot favorites, and two of them had to go through a severe erdeal in order to win. This was notably so in the case of Terra Cotta, and it made the teeth chatter of those who backed him in the pools at tremendous citis list evening to see him ferced to the whip in order to heat The truth is that the colt has been induiged, and was entered in the race for work. His trainer thought it would be an easy thing for him, but it was only his class that enabled him to win, hard ridden. This was the case with Macbeth, who also caused his supporters a moment of anguish, as he had to be severely punished in order to win from Joseph and Ten Day. Perhaps it was all the better for the stable that this occurred much better odds was offered against Wheeler T. for the fifth race in consequence, and he won easily. The opening race of six furlaces was easily won by Remsen. beating the favorite, Tessa K., four lengths, and was the beating the lavorite. Tessa K., four lengths, and was the only poor race of the day. The final selling affair furbished a brilliant flaish. In this race there was a collision in making that dangelous turn from the chain into the main track at the half-nile pole, and Wee Wa was thrown. Little Freeman, her rider, was not seriously injured.

WINNERS ON DIAMOND FIELDS. Philadelphia, Aug. 17.—Staley proved an easy mark for the Phillies this afternoon, while Sanders was altogether

too much for the Pittsburgs, who secured only four hits, scattered through as many different innings. A BARK INJURED BY A WHIRLWIND.

The bark Arcadia, which arrived here from Earbadoes yesterday, got a taste of the summer blizzard which New-York experienced on Monday, and though the vessel suffered, she had the good fortune narrowly to escape serious disaster. She was struck by a whiriwind which set the sails aback so quickly that she would have been dismantled except for the stout rigging. While in this condition a heavy sea broke over the stern, flooding the cable with water, and did considerable damage about the deck. Fortunately the bark was under short canvas at the time, or she would have been made a total wreck.

A DIPLOMATIC ANSWER TO THE MAYOR. HOW SOON WILL CONDUCTORS APPEAR ON THE TWENTY-THIRD STREET CARS!

Yesterday Secretary Berry received from Mayor Hewitt, to whom he had fowarded it at Sharon Springs, the following letter of President Leary, of the Twenty-third Street Ballway. It was written in reply to the Mayor's letter of August 8, in which he nounced his purpose of approving the recent ordi nance of the Aldermen which is intended to compel the employment of conductors as well as drivers upon the Twenty-third-st. cars, after giving the company a reasonable time to prepare for the change. sending the letter to Mr. Eerry, the Mayor directed that it might be made public. It is as follows: OFFICE OF THE TWENTY THIRD STREET RAIL-

Hon. A. S. Hewitt, Mayor.

Sir: Your control of the Hon. A. S. Hewitt, Mayor.

Sir: Your communication of the 8th inst. was duly received, and in response thereto I beg to state that at a meeting of the directors of the Twenty-third Street Railway Company held this day the question in reference t change of cars and motive power, which had been under earnest consideration since the present board and officers came into control, some twelve months since, was fully discussed, and the following resolution was unanimously Resolved. That the president and Executive Committee of this company be and are hereby directed and empowered to order as many double cars as the busi-ness of the road will require, and put them into use as rapidly as possible.

yesterday in Supreme Court, Chambers, before Judge Patterson in an wer to the writ of prohibition obtained Messemer from holding Secretary McLean responsib for the death of Mrs. Sophia Levy, who was killed by a "bobtail" car belonging to the company. The writ required Coroner Messemer to show cause why ould not be permanently enjoined from further proceeding against McLean. The answer of Coroner Messemer contains specific denials, already published, of the allegations made by McLean, on which the injunction was obtained. The Coroner further avers that the writ was only served on him when the jury had weighed the evidence and had decided upon a verdict. The jury subsequently brought in a verdict the Coroner says, censuring McLean, and he told them the meaning of the order of the court issuing the writ, and they retired and later brought in a verdict having no reference to McLean. The evidence produced at the inquest showed that there was reason able ground for the jury to hold McLean responsible for the death of Mrs. Levy, and he, acting in his capacity of committing magistrate, under the powers of the new State law, committed McLean for man-

COMMISSIONER REILLY EXAMINED.

HE SAYS THAT THE "ATTACKS" AGAINST HIS AD-MINISTRATION ARE MALICIOUSLY MADE.

In the examination of the administration of the office of Commissioner of Jurors Charles Retilly by the Commissioner of Accounts, which was continued vesterday, Mr. Reilly testified in his own defence. He said that he had held the office since May 10, 1885, and that his duties were generally to select proper persons to serve as jurors, collect penalties and decide claims for exemption from jury duty. The money collected by him he turned over to the City Chamberlain monthly. Mr. Shearman produced a compiled statement taken from the books of Mr. Reilly's office, showing that in 3,046 cases fines had been imposed, and in 1,402 cases they had been remitted. Satisfactory reasons for the remission in all but 274 cases appeared. In these cases no record could be found. Mr. Shear-man ashed what explanation he had to give in these 274 cases. Mr. Reilly replied that he had acted in accordance with the provision of law which made it his duty to dispose of the cases as he believed to be right and just. Where the evidence would be useful in future the record had been kept of all cases. Where the disability of the summoned juror was only temporary, and his name, after exemption at the particular time, went back again into the box, a record of the hearing was unnecessary. "I do not said Mr. Reilly, in conclusion, "that the law requires me to keep a record of the reasons for remitting these fines. I act upon my own responsibility and conscience."

by which it appeared that a number of fines had been reduced from \$100 to \$50, and Mr. Reilly was asked if he desired to explain anything regarding them. Mr. Reilly said, after looking them over, that he recalled only one of these cases—that of Henry Clews, the banker. Mr. Clews was sick at the time, and although the summons was disregarded he thought the case a proper one for leniency. Mr. Reilly said that he had a right to use his own discretion, and he had done so.

Mr. Reilly then explained in detail the methods followed in making up the petit jury list, which was taken from the city directory, the registry list and the tax list. The Grand Jury list was taken from lists of names prepared by the Board composed of the Chief Justices of the courts, the Mayor, the Recorder and the City Judge. In answer to Mr. Shearman's questioning, he said that he had received no money outside of his salary for any service rendered officially, and that all money collected by him for times he had paid over to the City Chamberlain, except for the current month.

Mr. Reilly, referring to the attacks made upon him. said that they were malicious and unwarranted, and had not been made in the interest of the city. He said: The Editor of . The World ' is not my superior in office and is not known to the law as any part of the city government. What he would do if he were Commissioner of Jurors is of no concern to me. The articles in that paper are tissues of misrepresentation, because incomplete and written in ignorance and disregard of law and custom. But it is not for me to answer 'The World.' It is for 'The World' to answer to me when the proper time arrives." Leputy Com-missioner of Jurors James E. Connor and half a dozen clerks in Mr. Reilly's office gave testimony as to their duties and salaries.

FOR SWINDLING PEOPLE IN NEW-JERSEY A young man named Wisfield S. Mechan was arraigned before Justice Patterson, at the Jefferson Market Court yesterday, and remanded back to Police Readquarters until to-day. Mechan was arrested by Detective Sergeant Jacob for collecting money under false representation. According to the detective's story, Mechan has been through the State of New-Jersey and has collected money from several persons. He said that he was authorized by the Rev. J. J. Brennan, of the Meenplain Roman

Catholic Church, and in that manner succeeded in de-Catholic Church, and in that manner successed in trauding a large number of persons.

Last week he called upon President McCurdy, of the Mutual Life Insurance Company, at his home at Moonplain, N. J., but found only his wife and daughter at home. Meehan succeeded in getting \$10 from them. When Mr. McCurdy heard of this he called on the priest and discovered that Meehan was a swindler. The New-Jersey authorities want Meehan, and have asked the New-York pries to held him until they can procure a requisition. solice to hold him until they can procure a requisition.

REVIEWING THE WEEK'S BUSINESS.

THE INDICATIONS FAVORABLE-NOT SO MANY FAILURES AS LAST WEEK.

The business failures throughout the country in the

past week, as reported by R. G. Dun & Co. of the

Mercantile Agency, numbered 187 for the United States and 32 for Canada, a total of 219, against 233 last week and 161 in the corresponding week last year. The firm regards the commercial situation as entirely satisfactory. It says, among other things: The signs this week are all more favorable. More definite information limits the loss by injury to wheat and otton, while corn prospects continue good. Business in cotton, while corn prospects continue government of a most every part of the country improves, with many indications of a good fall trade. Manufacturing is more active and labor is better employed. Railroad earnings show gains as usual, and the belief that wars will not last has strengthened. On the whole, the feeling has decidedly improved, and the actual situation also. For some months the dulness in the iron trade has been a discouraging symple, now an increase of 6,200 tons in the weekly tput since July 1 is recorded, a gain of nearly 6 per cen-This is partly due to the resumption of furnaces which sus-pend for a time in the summer for repairs, but some new and large works have swelled the cusput of coke from to 74,855 tons reckly. The coal market is also strong and active, and an advance is expected about September 1, co-incident with the advance in rail charges. The latest advices regarding the crops are favorable, because they indi-cate that the injuries undeniably sustained are not a This is the letter which has been described as communicating to the Maybr the company's intention of changing the motive power of their cars from horse to electric. A reference is indeed made to some "change of ears and motive power" by the company large as that of last year. The advices from interior points are more uniformly favorable, as to actual business, than for many weeks. Improvement to quite generally reported, with transactions exceeding last year's at many points. The clearing house returns also inflicate reviving activity, exceeding not year's by 6.6 per cent in the aggregate, and 7.7 per cent outside of New-York, but much of this gain is due to greater speculative activity in stocks at Boston, in gram at Chicago and in cotton at New-Orleans. Money is in ample supply for legitimate demands at nearly every point reporting.

THE AUGUST COTTON CORNER UNBROKEN by the Twenty-third Street Raticoad to restrain Coroner HAVE THE SHORTS BEEN CAUGHT IN THEIR OWN TRAP!-A MARKED DECLINE, HOW-

EVER. The sudden and marked decline in August cotton yesterday led some to believe that the corner had been broken, but the more shrowd operators looked upon it as a manipulation of the engineers upon the presumption that there would be a desperate effort of the shorts to recuperate, and that prices would stiffen again with a more lively market. A few believed, and they were probably more correct, that it was a movement to shake out the "tallers," those who hang on at the end and are a disturbing element to

The market closed on Thursday at 11.44 for August, but closed yesterday at 11.31, the lowest price for the day being 11.27. September closed at 9.69. Of the 110,000 bales in this market, the bulls claim to own 00,000; and they say they will have 20,000 bales reinspected at once and sent to Liverpool for Septemdelivery. It is believed that much of the cotton being sent here from Liverpool and the South, to help out the August shorts, will fail of inspection for want of time, and thus entail severe loss upon the owners Some of the bulls take exception to the reports that the August deal is a corner, claiming that it was a legitimate buying of cotton by a few who had the intrepidity to do so upon the knowledge that Liver-pool, the Continent, and New-Orleans were selling August and buying September so largely against it that before August some would want to cover their contracts, and in their anxiety to do so the market

would go up.

It is significant that the August shorts are those who were made bold by their successful speculations in March, April and May contracts, and believed that no higher prices could be reached during the year. They are accusing the buils who were caught in the spring deal with baseness of principles; but the latter insist if there is any iniquity among the speculators it lies with the shorts, who have been caught in their own trap.

ANOTHER MEDIUM EXPOSED.

. " CRIPIT" WHO MATERIALIZED SUDDENLY WHEN THE LIGHTS WERE TURNED UP.

An exposure of a medium who gave bogus manifes tations was made on Thursday night in a house in Glen-st., near the city line, in the Twenty-sixth Ward of Brooklyn, occupied by Mrs. Jennie Holmes, the medium. She has been giving seances for some time and among the firmest believers in her powers were Charles R. Miller, a real estate dealer; William Danmar, an architect; Dr. Van Horn and Noyes G. Palmer, a civil engineer. The last named recently ago, and she appeared to him at several scances. greatly desired to have his son, Noyes F. Palmer, witness the manifestation of his mother, and hoped to convert him to spiritualism, in regard to which he ex-

Finally the son agreed to go to a seance, and arranged with two friends, George D. Short and A. H. Ackerman, to assist him in exposing the nature of the performance. They went on Thursday night to the eance, which was attended by about fifty persons. After the usual proceedings the "spirits" appeared Mr. Miller's daughter, who died when an infant, but had grown up in the spirit land, appeared to her father and gave him a bouquet. Finally it was an-nounced that Mrs. Palmer wanted to see her son, and when he approached the cabinet a white-robed figure extended her arms to him and cried out, "My son! my son!" Mr. Palmer was not overcome by the marks of affection, but grabbed the "spirit" about the waist, while one of his friends turned up the lights.
Mr. Danmar and Dr. Van Horn tried to pull him away
from the "spirit," but he hold on and disclosed Mrs.
Holmes in a white robe. He succeeded in convincing
his father of the fraud. The members of the company
paid the medium \$18 before the scance began.

SHE WANTED THE IMAGE.

HER HUSBAND DID NOT GET AN ORDER FROM THE CHURCH AND SHE WAS DISAPPOINTED.

An exciting scene occurred in the Italian Roman Catholic Church of Our Lady of Mount Carmel, at Union-ave. and North Eighth-st., Brooklyn, yesterday about to conduct the morning mass when an Italian woman entered the vestry and began to berate the priest and call him a thief and a rascal. She demanded a crucifix which stood in the church, but the priest told her that her husband had presented it to the church and she could not take it away. She then entered the church and in the face of the congregation began to vituperate against the priest and say that he had conspired to take the bread out of the mouths of her husband and children. She finally subsided. After the service was over the woman began to upbraid the priest again, and made a motion as if to draw a from her sleeve to stab him. She was hustled away by some of the congregation and departed. Father Saponara secured a warrant for her arrest Father Saponara secured a warrant for her arrest later in the day, under the name of Mrs. John Doe, as he did not know her real name. He said the trouble was that her husband, who is an image maker, presented the church with a crueffly, especing that when other images were wanted he would receive orders. Recently some members of the church decided to present an image of St. Mishael to the church. This image maker wanted \$200 for it, but another one in New-York offered to do the work for \$150, and he got the order. The disappointed image maker sent his wife to see the priest about the matter. His place of business is said to be at No. 311 North Secondest. At that number an Italian image maker named Frank Miller was found, but he denied all knowledge of the matter. DOES HE WANT TO ANNOY THE MAYOR!

Acting Mayor Forster, who has not been an "Act ing Mayor" for seven days, could not be found in the city yesterday, though earnestly sought for by people who say that their business with the city is languishing on account of his absence, and by numerous reporters who were desirous of getting from him an explanation of his singular conduct i keeping away from the Mayor's office. It was certain that he had returned from his Washington pilgrimage, because on Thursday he went to the annual picnic of the Schnorer Club, at Bridgeport. At his law office yesterday it was said that his

whereabouts were unknown, and all infomation about him was refused. Sundry rumors purporting to give political and other reasons for Mr. Forster's failure to perform his duty were affoat, but none of them attributed high-minded motives to the Acting Mayor. The popular supposition is that the situa-tion has grown out of a jetty inclination to annoy Mr. Hewitt and disturb the placidity of his mind during his vacation.

DENYING THAT THEY LIBELLED MR. HEWITT. A demurrer was filed yesterday in the case of Robert P. Porter and Herbert L. Bridgman, who are under indictment for alleged criminal libel in printing an attack upon Mayor Hewitt. The counsel for the defendants declare that no crime has been charged, as the article is not libellous.

A German, who gave the name of Theodore Reuss wes arrested on the steamer Wieland yesterday as Anton Weisse, a merchant at Gossuitz, Saxe-Altenberg, charged with forging drafts to the amount of about \$2,600. He was taken to Ludlow Street Jail.

In the Harlem Police Court yesterday Justice Welde held Jacob E. Snitterlin, secretary of the Breece Mining Company, in \$10,000 ball for trial on the charge of forging a certificate of deposit of the United States Trust Company belonging to the Breece Mining Company, and thus securing \$1,500. Charles Roger, president of the mining company, is the complainant.

Emil Lindberg was arraigned before Judge Martine on a charge of perjury. He offered himself as a bondsman in a larceny case, saying that he owned four houses in Brooklyn valued at \$27,500. The property stands in the name of John H. Tisdale. He was held in \$3,500 ball.

RROOKLYN.

Bridge President Howell asserts that he has given up the idea of the Bridge railroad tracks being extended to the City Hall. The permanent connections made by the Kings County and the Union Elevated Pauliceal Commands at the present County and County an made by the Rhiss Railroad Companies at the present terminus forbid that there should be any changes there. The new Brooklyn station, between Sands and High sts., will be built next winter.

The body of a drowned man, about forty-five years of age, of medium height and dressed for cold weather in a heavy suit and overcoat, was found in the Gowanus Canal yesterlay at Third-st. bridge. It had been a long time in the water.

A number of the hackmen who were ordered away from City Hall square early in the week returned to their old positions in front of the City Hall at noon yes-terday. They said that they had no permission to stand there but would wait and see what the police would o. They were undisturbed during the afternoon.
George G. Smith, of No. 544 Vanderbilt-ave., was

before Police Justice Walsh yesterday upon a charge of shooting Adeline Mills, who had been living with him as his wife. Both are colored. Smith was jealous of the attentions she received from another young colored man, and upbraided her on the street Thursday night for going on an excursion without him. He told her not to enter his house again. Later in the evening he saw her by the door, and fired one shot to frighten her, and when she ran fired another and wounded her in the left thigh. She was not seriously hurt. The charge of outrageous assault made by Mary

Devine, age fifteen, against her father, James Devine, of No. 157 North Ninth-st., a short time ago, was dismissed yesterday, as the girl confessed that her mother and Mrs. Hart, a neighbor, induced her to tell the story as they wanted to send her father away, William Armit, age nineteen, a plumber, of East ew-York and St. Mark's aves., whose spine was fractured on August 6 while he was diving at Rockaway Beach, died yesterday at the Long Island Col-

lege Hospital. He made a dive in shallow water and struck the sand with his head.

NEWS FROM THE SUBURBS. NEW-JERSEY.

John Holste, the proprietor of a grocery and groggery at Newark and Jackson-sts., Hoboken, was arraigned before Recorder McDonough yesterday, charged with violating the new liquor law. A peculiarity of the case is that the complaint was made by John Fenner, who runs a rival liquor store at No. 200 Newark-st., and who says that he cannot compete with Holsto because he pays \$250 for his license and Holste pays

The attendance yesterday at the annual camp meeting of the Newark Conference of the Methodist Episcopal Church, at Mount Tabor, was large, despite the oppressive heat. At 10 a. m. the Rev. John Atkinson, of Newark, conducted the services. Those held at 2 p. m. were jed by the Rev. W. P. George, of Allendale, while the Rev. J. C. Hall, of Mount Hermon, had charge of the evening services. The body of John Quinn, age twenty-two, was

ville, yesterday. He was formerly a clerk for Andrew Selover, of South Amboy, but recently was employed by the railroad company. The cause of his death is unknown. Daniel Stevens, of Jamesburg, who for years has been mail clerk between Monmouth Junction and Jamesburg, has been removed. The only cause for

John Hickey, age thirty, an employe of the Lehigh Valley Railroad Company, while unloading steel rails yesterday, was struck by one of them and received injuries which will probably prove fatal. He was removed to the City Hespital.

NEWARK.

In the Second District Court yesterday a jury awarded \$125.02 damages to Alexander McAlpin in a suit against T. P. Howell & Co for alleged breach of contract. The suit grew out of the leather workers' strike a year ago. McAlpine was discharged because he refused to sign an agreement. The case will be appealed.

The wreck of the steamer Thomas P. Way, which was burned at her dock a month ago, was sold at auction vesterday for \$1,010 to John H. Gregory. Julia Leitz, age two years, had been sick for sev

eral days, and yesterday her grandmother gave her a dose of creosote in mistake for medicine. The child died last night.

LONG ISLAND.

Several young men, charged with throwing stones at an excursion party, were brought before Justice Delehanty, in the Long Island City Pelice Court, yesterday, for examination. William Sullen proved an aithi and was discharged. Thomas Fitzgerald, who was shot during the aifray, was committed to the county jail and others were held for examination.

By mutual consent the examination of the Long Island Raliroad officials before Mayor tileason, of Long Island City, was yesterday adjourned until Tuesday next. The adjournment was made to await the result of the Supreme Court's action in the injunction obtained by the railroad people, preventing the Mayor from further interfering with their property.

George W. Turner, the business manager of "The World," who had his hand shattered while shooting at Far Rickaway, is now out of danger. It was feared at first that lockjaw would set in.

THE DOG CATCHERS MISS THE MATOR. A rumor to the effect that Keeper John McMahon, of the dog pound, was on the point of offering his resignation was denied by him yesterday. All he wanted, he said, was that a Mayor, Acting Mayor, or wanted, he said, was that a Mayor, Acting Mayor, or Deputy Acting Mayor should appear at the City Hall and sign his warrant for the money due to his dos catchers. These valuable servants of the city had not been paid since Mr. Hewitt left town, and they were getting resiless and might go on strike. Reeper McMahon, therefore, is waiting anxiously for the te-mination of the vacancy existing in the Mayor's office.
